Affiliated with the
International Radiation Protection Association (I.R.P.A.)

The history

Once upon a time, the 25th September 2017...

The 10th April 2018, the J-SEPR was recognized as a new Commission of the SEPR.

SPANISH SOCIETY FOR RADIOLOGICAL PROTECTION

Affiliated with the
International Radiation Protection Association (I.R.P.A.)

Organization of the J-SEPR

Cristian Candela	President / Coordinador
David Hernández	Vice-president / Secretary
Zulima Aza	Secretary
Saroa Rozas	Representative in the organizing committee of the next national congress
Natividad Sebastià	Representative in the national journal of the SEPR
Javier Tenajas	Representative in the Scientific Activities Committee

We are...

- ≤ 35 years old
- Representation of the fields: medical, research, teaching and nuclear industry.
- Balanced (3 boys and 3 girls)
- Representation of the 10% of the SEPR members ≤ 35 years (6 out of ~60).

International Radiation Protection Association (I.R.P.A.)

Goals of the J-SEPR:

- ✓ Provide **new innovative ideas** to the SEPR Commissions and **learn** from them.
- ✓ Organize and promote **training courses** on RP among the youngest population.
- ✓ Disseminate and promote **employment** in RP.
- ✓ Support and contribute to training in **research**.
- ✓ **Increase** the presence of young people in the SEPR.

In 2017: only 6% of the SEPR members had ≤ 35 years old.

In 2018: 10%! Reason: J-SEPR and scholarships awarded by the SEPR?

International Radiation Protection Association (I.R.P.A.)

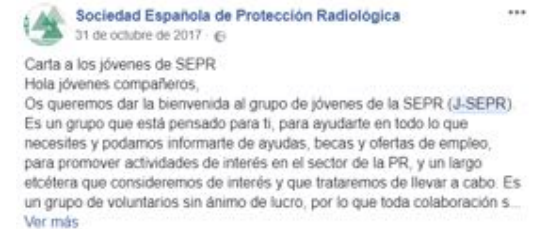

Activities:

- **Dissemination of news** for young members through:

- ✓ Social networks of the SEPR.
- ✓ Journal of the SEPR.
- ✓ E-mails.

such as:

- Scholarships and prizes awarded by the SEPR or other RP societies.
- IRPA congresses and international/national courses on RP.
- IRPA questionnaire for young people. →

Activities:

- **Courses and seminars on RP:**
 - ✓ Talks in Primary Schools for the International Day of Women and Girls in Science. February 2018, Madrid and Valencia.

- **Courses and seminars on RP:**

- ✓ Invited talk in the basic course on nuclear fusion, organized by JJ.NN. - University level.
13th April 2018, Bilbao.

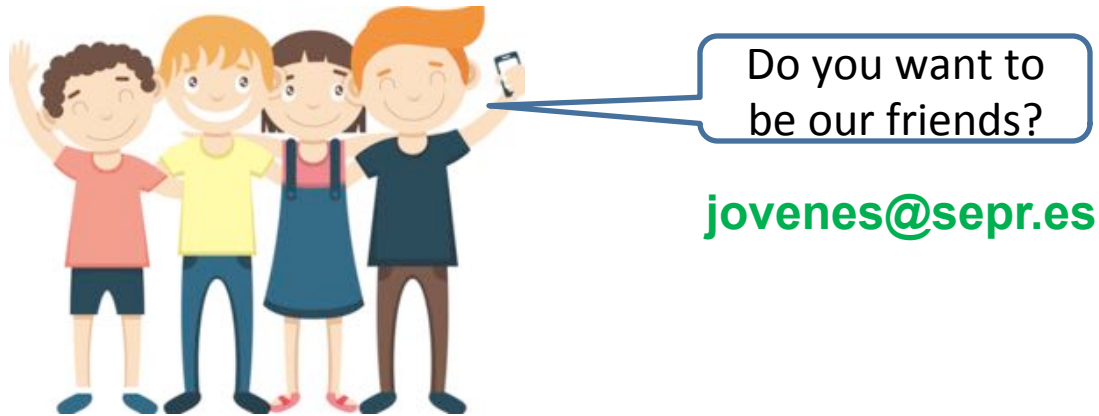

- ✓ Seminar on career opportunities in the field of Radiation Protection - University level.
10th May 2018, Valencia.
This seminar will be repeated periodically and in different Spanish universities.

Activities:

- Establish **contact with other Youth Clubs** that share common interests.

For example: Youth Club of the Spanish Nuclear Society, IRPA Young Generation Network, Youth Club of the French Society for Radiation Protection...

Other plans for the near future:

- Organizing more courses on Radiation Protection for students and general population
- Helping attract new young members and collaborators
- Having our own section on the SEPR webpage
- Collaborating in the publication of job offers in the SEPR webpage
- Organizing visits to radiological or radioactive facilities for young members
- Preparing webinars or videos of interest for young professionals (e.g. How to write a scientific article - presentation in collaboration with JJ.NN.)
- ...
